ABBYY FlexiCapture 8.0 Professional

<< Back

Specification

System Requirements

1. PC with Intel® Pentium®/Celeron®/Xeon™/Athlon™/Duron™/Sempron™ processor or compatible:

- 500 MHz (minimum)/2 GHz (recommended) - for Microsoft Windows Vista
- 350 MHz (minimum)/ 2 GHz (recommended) - for Windows 2000/XP/2003

2. Operating system:

- Microsoft Windows Vista
- Microsoft Windows Server 2003
- Microsoft Windows XP (Service Pack 2 or higher)
- Microsoft Windows 2000 (Service Pack 3 or higher)
- Microsoft Windows Server 2000 (Service Pack 3 or higher)

For the program to run with a localized interface, the operating system must provide the required language support.

3. RAM:

- 512 MB (minimum)/1024 MB (recommended) - for Windows Vista;
- 128 MB (minimum)/512 MB (recommended) - for Windows XP/2003;
- 64 MB (minimum)/512 MB (recommended) - for Windows 2000;

In multiprocessor systems, an additional 16 MB of RAM is required for each additional processor.

4. Free hard-disk space: 420 MB for minimal configuration (Operator Station only), 450 MB for standard installation (Operator and Administrator Stations, FlexiLayout and FormDesigner tools); and 200 MB for program operation (1 GB recommended).

5. Scanner supporting TWAIN or ISIS.

6. Internet connection to activate the serial number when using a software protection key or a USB port for a hardware protection key (dongle).

7. Video card and display with a minimum resolution of 800×600.

8. Keyboard, mouse or other pointing device.

Supported Scanning Devices

FlexiCapture supports a wide range of both TWAIN- and ISIS-enabled scanners.

TWAIN Drivers

The list of tested TWAIN-drivers and scanners can be found [here](#).

ISIS Drivers

The list of certified ISIS drivers and scanners can be found [here](#).

Input Formats

PDF	Including PDF/A
BMP	black-and-white, gray, color
PCX	black-and-white, gray
PNG	black-and-white, gray, color
JPEG	gray, color
JPEG 2000	
TIFF	black-and-white - not compressed, CCITT3, CCITT4, Packbits; gray - not compressed, Packbits, JPEG; color - not compressed, JPEG
DjVu	
DCX	

Recognition Languages

ABBYY FlexiCapture 8.0 provides **OCR** (recognition of machine-printed characters) for more than 180 languages, **ICR** (recognition of hand-printed characters) for more than 100 languages and **dictionary support** for more than 40 languages.

For such fields as **Name, Number, Date/Time, Currency** and **Address** FlexiCapture provides a set of pre-defined regional formats and dictionaries.
